- Are you of Masculine or Feminine plight?
- What Elemental Aura do you give off: Water/fluid? Earth/solid? Air/flighty? Fire/fiery?
- Are you of Dynamic or Strategic energy?
- Are you of "Positive" or "Negative" quality?
- Is your disposition Odd? Abstract? Extroverted?
- Is it: Even? Concrete? Introverted?
- Are you instinctively a Subjective Feeler or an Objective Thinker?

Find out if (together) your sun + moon + rising sign are harmonious or disharmonious, in conjunction, or in a position of: growth, flow, tension, opportunity, confusion or opposition and what that means to you.

Found within this book, you will learn the true meaning of what a "follower" is: merely a misguided person who has not found his or her own way. However, spiritually speaking (per karma mission and purpose in life) everyone is here to: Lead (and be cardinal in spirit), Organize (and be "fixers") or Communicate (and be mutable)-there is no such spirit as a "follower" in the universal spiritual realm under which we reside.

So follow this guide-tailored just for you! Discover what your very own karma mission and purpose in life is, and whether or not you are Leading, Organizing, or Communicating via your ego (sun sign), id (moon sign) or your spirit (ascendant/rising sign)...

Either way, we all are living by way of one of three things:

- Free Will
- Default
- Destiny

...So whether your philosophy on matters involving the self and purpose in life are intuitive or scientific; *First Thing First: Discovering Your Karma Mission and Purpose in Life* is for, and about-but ultimately, up to you.

Angela Sherice has studied the ancient art, and intuitive science of astrology for many years. By way of the beginning of the book of Genesis, basic math, an encyclopedia, a dictionary, a thesaurus, and incorporating a little bit of: astronomy, psychology, philosophy, chemistry and physics; she wrote *First Thing First: Discovering Your Karma Mission and Purpose in Life*-an out of the box, new thought approach to traditional astrology, and an interpretation unheard of, above all other astrology books ever written. Intent on providing lovers of [and those simply interested in astrology]; practicality and personal usefulness of it (rather than the typical approach: elaborating on zodiac sign characteristics and relationship compatibility) her simple and underlying methodology of using numbers, order, continuity and balance, is such that even the biggest skeptic could not deny its logic. Sherice's relationship with astrology helped her understand her very own "firstness" and who she was innately (as per her approximate time, month, and day that she was born), in contrast to her "learnedness" (environment, social, situational factors etc.). With that, by way of a conscious decision to return, respect and "re" learn her (innate) firstness-it was during-that she discovered that it was her own karma mission and purpose in life to "Communicate" (which is what she loves and does through writing). By tapping into that power within, that epiphany was such that she felt it was her spiritual duty to communicate the same methodology with the world-with pleasure, and the intent of enlightening, empowering, encouraging, motivating and inspiring others to discover the same for themselves.

Chapter 13

How Compatible Are YOU with YOU?

Unlike in Chapters 7-11 (on pages 111, 119, 122, 126 and 132), in this chapter, the focus is not on diluted vs concentrated signs.

Here, we are looking at your sun, moon and rising sign, *however*, you can use either the diluted side of your sun, moon and rising OR the concentrated side of your sun, moon & rising. Because regardless the side, it is all a *balanced* part of your personological makeup. (Turn back to page 136 and re-read the bold print). That is the reason why on pages 108-133 (chapters 7-11, pages 111, 119, 122, 126, and 132); no matter the diluted or concentrated sun sign, diluted or concentrated moon sign, or the diluted or concentrated rising sign; it is balanced with a totality of 6-that is: 3 diluted + 3 concentrated signs. That totality is a total 3 thinking signs + 3 feeling signs (as explained back on page 136 in the bold print).

As explained in pages 96-104, “Planets” in the constellation are representative of the characteristics imbedded within each human being on earth-our “community.” Positive [and particularly of negative] within our own earthly community, we tend to form opinions and beliefs about each other without personally knowing one another. Ignorance (to not know/have knowledge of or about) breeds prejudice. This “prejudice” creates blocked energy, which in turn, creates conflict-as long as we remain “ignorant” about one another here on earth.

Astrologically and personologically speaking, unfortunately, this blocked energy can never become unblocked. Because your astrological chart simply is what it is (and can’t be changed).

I’ll explain:

Because there is a sun, moon *and* rising sign within your astrological makeup, it is quite possible that all constellations within you (your sun + moon + rising signs) may not be “harmonious.” That is why it is very important to know what your sun, moon *and* rising signs are-so that you are able to work with *yourself*-to help you understand the reason(s) for this blocked energy that create: strain, turbulence or disharmony.

On the other side of that though, there *are* some people with harmonious sun sign + moon sign + rising signs.

If your sun, moon and rising signs *are* harmonious, you still need to know what to do to maintain this harmony-as all relationships (no matter how harmonious), require maintenance in order to work. It’s no different than the work it takes to lessen disharmony, turbulence or strain.

There is nothing we can do to change the placements of the planets and constellations in the heavens anymore than we can change their placement during our birth (from whence our natal birth charts are derived). The only thing we can do is study, learn and know them so that we can see what place they have in our lives, and from there; work with and respect it-simple as that.

As we already know, the heavens rotate but even when they do, they still remain certain degrees apart, which too, is a contributor to the reason for harmony, strain or turbulence here on earth (between us and within ourselves).

Learning the placement of your planet (Mercury, Venus, Mars, Jupiter, Saturn, Uranus, Neptune or Pluto) within your constellation (Aries, Taurus, Gemini, Cancer, Leo, Virgo, Libra, Scorpio, Sagittarius, Capricorn, Aquarius or Pisces) is especially important to know about if they are placed at a turbulent/strenuous/disharmonious degree. Why? Because it is your (sun + moon + rising) chart = you (astrologically/personologically).

As explained in the prologue, there are things that separate us: geography, race, color, religion, nationality, etc. Sometimes, these “degrees of separation” apart can make us “ignorant” to that which is not “like” us. And as a result, how we relate to one another can be harmonious or disharmonious. In the heavens, planets and constellations are “degrees apart” like that (just the same).

Our birth chart is a result of how we fell into their placement at the time, day and year of our birth. Have you ever heard the quote: “anything born at a particular moment in time will have the qualities of that moment in time?” That’s basically what “astrology” is. It’s an intuitive science of study about a moment in time that you and I “fit” into. The science and study of it super cedes us. But per our placement (planets & constellations) it is believed that some aspects of our personality are like that of the science. Obviously other factors such as our environment, the way we were raised, our social class/socio-economic persons etc., play a part in who we are as persons, but it is believed that astrology (and our placement in it) does as well-factors as such as reasons why we are harmonious or disharmonious.

With regard to this “Self-Compatibility” chapter, I will show you where your: sun+ moon + rising sign’s are harmonious or disharmonious. Just like in life where there is disharmony, there are steps we can take to bring about some semblance of harmony by being who we are, changing who we are, or adding light or positivity places where disharmony, dark or negative resides.

So, in this chapter, where disharmony is within the combination of your sun + moon + rising sign; you may refer back to Chapter 3/page 82-91 to see the light side and dark side characteristics for your sun sign, your moon sign *and* your rising sign.

Also, (on page VII) in reviewing Table of Content’s chapters 7, 8, 9, 10, 11 12; you can clearly see reasons why (or why not) your sun + moon + rising sign are harmonious. Because of *Water + Earth -vs. Air + Fire | Masculine -vs. Feminine | Dynamic -vs. Strategic | Positive -vs. Negative | Abstract/Extroverted/Odd -vs. Concrete/ Introvert/Even | Subject Feelers -vs. Objective Thinkers.*

...It’s all right there under that part of the Table of Contents.

Carefully review which signs fall and fit into each, and you will fully understand why the harmony or disharmony with of your sun + moon + rising sign where your (astrological) “Self-Compatibility” is concerned.

Have fun:

(1-1) Pattern of **CONJUNCTION**.

This 1-1 pattern is 2 planets/same constellation, 0 ° apart and could be just as harmonious or just as turbulent, if within your sun, moon and rising sign; two of the three signs are:

Aries | Aries
Taurus | Taurus
Gemini | Gemini
Cancer | Cancer
Leo | Leo
Virgo | Virgo
Libra | Libra
Scorpio | Scorpio
Sagittarius | Sagittarius
Capricorn | Capricorn
Aquarius | Aquarius
Pisces | Pisces

But since you have a sun, moon *and* rising sign; a third astrological sign is going to have to fit into this equation.

Here is a list of third signs that thicken the harmony (or thicken the turbulence) within this 1-1 pattern.

Aries Aries	3 rd sign: Leo or Sagittarius or Gemini or Aquarius <--(see EXAMPLE below)
Taurus Taurus	3 rd sign: Virgo or Capricorn or Cancer or Pisces
Gemini Gemini	3 rd sign: Libra or Aquarius or Leo or Aries
Cancer Cancer	3 rd sign: Pisces or Scorpio or Taurus or Virgo
Leo Leo	3 rd sign: Aries or Sagittarius or Libra or Gemini
Virgo Virgo	3 rd sign: Taurus or Capricorn or Cancer or Scorpio
Libra Libra	3 rd sign: Gemini or Aquarius or Leo or Sagittarius
Scorpio Scorpio	3 rd sign: Cancer or Pisces or Virgo or Capricorn
Sag Sag	3 rd sign: Leo or Aries or Libra or Aquarius
Cap Cap	3 rd sign: Taurus or Virgo or Pisces or Scorpio
Aqu Aqu	3 rd sign: Gemini or Libra or Aries or Sagittarius
Pisces Pisces	3 rd sign: Cancer or Scorpio or Taurus or Capricorn

In this 1-1 pattern, if that third sign is incompatible, then this vibration is disharmonious.

Aries | Aries if 3rd sign is: Canc, Pisc, Scorp, Cap, Tau or Virg = “disharmonious”
(but if the 3rd sign is LIBRA-see upcoming 7-7 pattern pages 153-157)

Tau | Tau if 3rd sign is: Leo, Sag, Aries, Aqu, Libra or Gem = “disharmonious”
(but if the 3rd sign is SCORPIO-see upcoming 7-7 pattern pages 153-157)

Gem | Gem if 3rd sign is: Virg, Tau, Cap, Canc, Pisc, Scorp = “disharmonious”
(but if the 3rd sign is SAG-see upcoming 7-7 pattern pages 153-157)

Can | Can if 3rd sign is: Aries, Sag, Leo, Lib, Gem, Aqu = “disharmonious”
(but if the 3rd sign is CAP-see upcoming 7-7 pattern pages 153-157)

Leo | Leo if 3rd sign is: Scorp, Pisc, Canc, Tau, Vir, Capr = “disharmonious”
(but if the 3rd sign is AQU-see upcoming 7-7 pattern pages 153-157)

Virgo | Virgo if 3rd sign is: Sag, Leo, Aries, Gem, Lib, Aqu = “disharmonious”
(but if the 3rd sign is PISCES-see upcoming 7-7 pattern pages 153-157)

Libra | Libra if 3rd sign is: Cap, Tau, Vir, Canc, Pisc, Scorp = “disharmonious”
(but if the 3rd sign is ARIES-see upcoming 7-7 pattern pages 153-157)

Scorp | Scorp if 3rd sign is: Aqu, Gem, Lib, Aries, Sag, Leo = “disharmonious”
(but if the 3rd sign is TAU-see see upcoming 7-7 pattern pages 153-157)

Sag | Sag if 3rd sign is: Pisc, Canc, Scorp, Tau, Cap, Vir = “disharmonious”
(but if the 3rd sign is GEM-see upcoming 7-7 pattern pages 153-157)

Cap | Cap if 3rd sign is: Lib, Aqu, Gem, Leo, Aries, Sag = “disharmonious”
(but if the 3rd sign is CANCER-see upcoming 7-7 pattern pages 153-157)

Aqu | Aqu if 3rd sign is: Scorp, Pisc, Canc, Tau, Vir, Cap = “disharmonious”
(but if the 3rd sign is LEO-see upcoming 7-7 pattern pages 153-157)

Pisces | Pisces if 3rd sign is: Gem, Lib, Aqu, Ari, Leo, Sag = “disharmonious”
(but if the 3rd sign is VIRGO-see upcoming 7-7 pattern pages 153-157)

(2-12) Pattern of **Growth**

Remember at the very beginning of this compatibility chapter (page 138/ paragraphs 4-6) we talked about “neighborly” relationships due to proximity/ closeness where I stated: “*if we become familiar with anyone in our neighborhood/apartment building, it is usually the one(s) who live closest to us and especially the ones who live right next door...*”

This 2-12 pattern is two planets, 45° apart from each other. Although not astrologically favorable, they *could* work but require sacrifice because signs/ pattern is of “out of step,” (like one foot on one step, and the other-on the step below it). In this pattern, one has an understanding of the other due to proximity, which is the reason the relationship can grow to be harmonious. This 2-12 pattern is harmonious, if within your sun, moon and rising sign; two of the three signs are:

Aries Taurus	have a neighborly relationship and understanding of one another due to proximity.
Taurus Gemini	have a neighborly relationship and understanding of one another due to proximity.
Gemini Cancer	have a neighborly relationship and understanding of one another due to proximity.
Cancer Leo	have a neighborly relationship and understanding of one another due to proximity.
Leo Virgo	have a neighborly relationship and understanding of one another due to proximity.
Virgo Libra	have a neighborly relationship and understanding of one another due to proximity.
Libra Scorpio	have a neighborly relationship and understanding of one another due to proximity.
Scorpio Sag	have a neighborly relationship and understanding of one another due to proximity.
Sagittarius Cap	have a neighborly relationship and understanding of one another due to proximity.
Capricorn Aqu	have a neighborly relationship and understanding of one another due to proximity.
Aquarius Pisces	have a neighborly relationship and understanding of one another due to proximity.
Pisces Aries	have a neighborly relationship and understanding of one another due to proximity.

But since you have a sun, moon *and* rising sign, a third astrological sign is going to have to fit into this equation, so:

Since *Aries* and *Taurus* have a neighborly relationship and understanding of one another due to proximity, **if the third sign is:** CANCER, LIBRA, CAPRICORN, SCORPIO, AQUARIUS or LEO, the compatibility of ARIES with AQUARIUS or ARIES with LEO, and the compatibility of TAURUS with CANCER or TAURUS with CAPRICORN is helpful.

But if your three signs are: ARIES | TAURUS | SCORPIO, or ARIES | TAURUS | LIBRA, these three-together (as sun, moon and rising signs) are disharmonious vibrations.

Since *Taurus* and *Gemini* have a neighborly relationship and understanding of one another due to proximity, **if the third sign is:** LEO, AQUARIUS, SCORPIO, PISCES, VIRGO or SAGITTARIUS, the compatibility of TAURUS with PISCES or TAURUS with VIRGO and the compatibility of GEMINI with LEO or GEMINI with AQUARIUS is helpful.

But if your three signs are: TAURUS | GEMINI | SCORPIO, or TAURUS | GEMINI | SAG, these three-together (as sun, moon and rising signs) are disharmonious vibrations.

Since *Gemini* and *Cancer* have a neighborly relationship and understanding of one another due to proximity, **if the third sign is:** VIRGO, PISCES, SAGITTARIUS, CAPRICORN, ARIES or LIBRA, the compatibility of GEMINI with ARIES or GEMINI with LIBRA, and the compatibility of CANCER with VIRGO or CANCER with PISCES is helpful.

But if your three signs are: GEMINI | CANCER | SAG or GEMINI | CANCER | CAP, these three-together (as sun, moon and rising signs) are disharmonious vibrations.

Since *Gemini* and *Cancer* have a neighborly relationship and understanding of one another due to proximity, **if the third sign is:** VIRGO, PISCES, SAGITTARIUS, CAPRICORN, ARIES or LIBRA, the compatibility of GEMINI with ARIES or GEMINI with LIBRA, and the compatibility of CANCER with VIRGO or CANCER with PISCES is helpful.

But if your three signs are: GEMINI | CANCER | SAG or GEMINI | CANCER | CAP, these three-together (as sun, moon and rising signs) are disharmonious vibrations.

Since *Cancer* and *Leo* have a neighborly relationship and understanding of one another due to proximity, **if the third sign is:** ARIES, CAPRICORN, LIBRA, TAURUS, SCORPIO and AQUARIUS, the compatibility of CANCER with TAURUS or CANCER with SCORPIO, and the compatibility of LEO with ARIES or LEO with LIBRA is helpful.

But if your three signs are: CANCER | LEO | CAPRICORN or CANCER | LEO | AQU, these three-together (as sun, moon and rising signs) are disharmonious vibrations.

Since *Leo* and *Virgo* have a neighborly relationship and understanding of one another due to proximity, **if the third sign is:** TAURUS, SCORPIO, AQUARIUS, GEMINI, SAGITTARIUS or PISCES, the compatibility of LEO with GEMINI or LEO with SAGITTARIUS, and the compatibility of VIRGO with TAURUS or VIRGO with SCORPIO is helpful.

But if your three signs are: LEO | VIRGO | AQUARIUS, or LEO | VIRGO | GEMINI, these three-together (as sun, moon and rising signs) are disharmonious vibrations.

Since *Virgo* and *Libra* have a neighborly relationship and understanding of one another due to proximity, **if the third sign is:** GEMINI, SAGITTARIUS, PISCES, ARIES, CAPRICORN or CANCER, the compatibility of VIRGO with CAPRICORN or VIRGO with CANCER, and the compatibility of LIBRA with GEMINI or LIBRA with SAGITTARIUS is helpful.

But if your three signs are: VIRGO | LIBRA | PISCES or VIRGO | LIBRA | ARIES, these three-together (as sun, moon and rising signs) are disharmonious vibrations.

Since *Libra* and *Scorpio* have a neighborly relationship and understanding of one another due to proximity, **if the third sign is:** ARIES, CAPRICORN, CANCER, TAURUS, AQUARIUS or LEO, the compatibility of LIBRA with AQUARIUS or LIBRA with LEO, and the compatibility of SCORPIO with CANCER or SCORPIO with CAPRICORN is helpful.

But if your three signs are: LIBRA | SCORPIO | TAURUS or LIBRA | SCORPIO | ARIES, these three-together (as sun, moon and rising signs) are disharmonious vibrations.

Since *Scorpio* and *Sagittarius* have a neighborly relationship and understanding of one another due to proximity, **if the third sign is:** TAURUS, LEO, AQUARIUS, GEMINI, PISCES or VIRGO, the compatibility of SCORPIO with PISCES or SCORPIO with VIRGO, and the compatibility of SAGITTARIUS with LEO or SAGITTARIUS with AQUARIUS is helpful.

But if your three signs are: SCORPIO | SAG | TAURUS or SCORP | SAG | GEMINI, these three-together (as sun, moon and rising signs) are disharmonious vibrations.

Since *Sagittarius* and *Capricorn* have a neighborly relationship and understanding of one another due to proximity, **if the third sign is:** GEMINI, PISCES, VIRGO, CANCER, ARIES or LIBRA, the compatibility of SAGITTARIUS with ARIES or SAGITTARIUS with LIBRA, and the compatibility of CAPRICORN with PISCES or CAPRICORN with VIRGO is helpful.

But if your three signs are: SAG | CAP | GEMINI, or SAG | CAP | CANCER, these three-together (as sun, moon and rising signs) are disharmonious vibrations.

Since *Capricorn* and *Aquarius* have a neighborly relationship and understanding of one another due to proximity, **if the third sign is:** CANCER, ARIES, LIBRA, TAURUS, LEO or SCORPIO, the compatibility of CAPRICORN with SCORPIO or CAPRICORN with TAURUS, and the compatibility of AQUARIUS with LIBRA or AQUARIUS with ARIES is helpful.

But if your three signs are: CAPRICORN | AQU | LEO, or CAP | AQU | CANCER, these three-together (as sun, moon and rising signs) are disharmonious vibrations.

Since *Aquarius* and *Pisces* have a neighborly relationship and understanding of one another due to proximity, **if the third sign is:** TAURUS, LEO, SCORPIO, GEMINI, SAGITTARIUS or VIRGO, the compatibility of AQUARIUS with GEMINI or AQUARIUS with SAGITTARIUS, and the compatibility of PISCES with TAURUS or PISCES with SCORP is helpful.

But if your three signs are: AQU | PISCES | LEO, or AQU | PISCES | GEMINI, these three-together (as sun, moon and rising signs) are disharmonious vibrations.

Since *Pisces* and *Aries* have a neighborly relationship and understanding of one another due to proximity, **if the third sign is:** GEMINI, SAGITTARIUS, VIRGO, LIBRA, CAPRICORN, or CANCER, the compatibility of PISCES with VIRGO or PISCES with CANCER, and the compatibility of ARIES with GEMINI or ARIES with SAGITTARIUS is helpful.

But if your three signs are: PISCES | ARIES | LIBRA or PISCES | ARIES | CAPRICORN, these three-together (as sun, moon and rising signs) are disharmonious vibrations.

(3-11) Pattern of **Flow**

This 3-11 pattern is 2 planets 60° apart from one another. It is astrologically known as the “friendly” vibration and is harmonious if within your sun, moon and rising sign; two of the three signs are:

Aries | Gemini
Aries | Aquarius
Taurus | Cancer
Taurus | Pisces
Gemini | Leo
Gemini | Aries
Cancer | Taurus
Cancer | Virgo
Leo | Gemini
Leo | Libra
Virgo | Cancer
Virgo | Scorpio
Libra | Leo
Libra | Sagittarius
Scorpio | Virgo
Scorpio | Capricorn
Sagittarius | Libra
Sagittarius | Aquarius
Capricorn | Scorpio
Capricorn | Pisces
Aquarius | Aries
Aquarius | Sagittarius
Pisces | Taurus
Pisces | Capricorn

But since you have a sun, moon *and* rising sign, a third astrological sign is going to have to fit into this equation. The following compatible 3rd signs maintain harmony within the 3-11 vibration:

Aries | Gemini 3rd sign: LEO or AQUARIUS
Aries | Aquarius 3rd sign: SAGITTARIUS or GEMINI
Taurus | Cancer 3rd sign: VIRGO or PISCES
Taurus | Pisces 3rd sign: CAPRICORN or VIRGO
Gemini | Leo 3rd sign: LIBRA or ARIES
Gemini | Aries 3rd sign: AQUARIUS or LEO
Cancer | Taurus 3rd sign: PISCES or VIRGO
Cancer | Virgo 3rd sign: SCORPIO or TAURUS
Leo | Gemini 3rd sign: ARIES or LIBRA
Leo | Libra 3rd sign: SAGITTARIUS or GEMINI
Virgo | Cancer 3rd sign: TAURUS or SCORPIO
Virgo | Scorpio 3rd sign: CAPRICORN or CANCER

Libra Leo	3 rd sign: GEMINI or SAGITTARIUS
Libra Sagittarius	3 rd sign: AQUARIUS or LEO
Scorpio Virgo	3 rd sign: CANCER or CAPRICORN
Scorpio Cap	3 rd sign: PISCES or VIRGO
Sagittarius Libra	3 rd sign: LEO or AQUARIUS
Sagittarius Aqu	3 rd sign: ARIES or LIBRA
Capricorn Scorp	3 rd sign: VIRGO, PISCES
Capricorn Pisces	3 rd sign: TAURUS or SCORPIO
Aquarius Aries	3 rd sign: GEMINI or SAGITTARIUS
Aquarius Sag	3 rd sign: LIBRA or ARIES
Pisces Taurus	3 rd sign: CANCER or CAPRICORN
Pisces Capricorn	3 rd sign: SCORPIO or TAURUS

It is not likely that all three of your sun, moon *and* rising signs will be harmonious, unfortunately. Listed are the third signs that are disharmonious to the 3-11 harmonious vibration:

Aries Gemini	3 rd sign: LIB, SAG, CANC, PISC, SCOR, TAU, CAPR, or VIR
Aries Aquarius	3 rd sign: LIB, LEO, CANC, PISC, SCOR, TAU, CAPR, or VIR
Taurus Cancer	3 rd sign: SCOR, CAPR, ARI, LEO, SAG, AQU, GEM or LIB
Taurus Pisces	3 rd sign: SCOR, VIRG, AQU, LIB, GEM, LEO, SAG, or ARI
Gemini Leo	3 rd sign: SAG, AQU, SCOR, PISC, CANC, TAU, CAPR, or VIR
Gemini Aries	3 rd sign: SAG, LIB, CANC, PISC, SCOR, TAU, CAPR or VIR
Cancer Taurus	3 rd sign: CAPR, SCOR, GEM, LIB, AQU, SAG, LEO, or ARI
Cancer Virgo	3 rd sign: CAPR, PISC, GEM, LIB, AQU, SAG, ARI, or LEO
Leo Gemini	3 rd sign: AQU, SAG, TAU, VIR, CAPR, CANC, SCOR or PISC
Leo Libra	3 rd sign: AQU, ARI, CANC, PISC, SCOR, TAU, VIR, or CAPR
Virgo Cancer	3 rd sign: PISC, CAPR, GEM, AQU, LIBRA, LEO, ARI or SAG
Virgo Scorpio	3 rd sign: PISC, TAU, SAG, ARI, LEO, AQU, LIB or GEMINI
Libra Leo	3 rd sign: ARI, PISC, PISC, SCOR, CANC, VIR, CAPR or TAU
Libra Sagittarius	3 rd sign: ARI, GEM, TAU, VIR, CAPR, CANC, PISC, or SCORP
Scorpio Virgo	3 rd sign: TAU, PISC, ARI, LEO, SAG, GEM, LIB or AQU
Scorpio Cap	3 rd sign: TAU, CANC, AQU, GEM, LIBRA, ARI, SAG, or LEO
Sagittarius Libra	3 rd sign: GEM, ARI, CANC, PISC, SCOR, TAU, VIR, or CAPR
Sagittarius Aqu	3 rd sign: GEM, LEO, CAPR, VIR, TAU, CANC, PISC, or SCORP
Capricorn Scorp	3 rd sign: CANC, TAU, GEM, LIB, AQU, LEO, SAG, or ARI
Capricorn Pisces	3 rd sign: CANC, VIR, ARI, LEO, SAG, AQU, LIB, or GEM
Aquarius Aries	3 rd sign: LEO, LIB, CANC, PISC, SCOR, VIR, CAPR or TAU
Aquarius Sag	3 rd sign: LEO, GEM, CANC, PISC, SCOR, TAU, CAPR or VIR
Pisces Taurus	3 rd sign: VIR, SCOR, ARI, SAG, LEO, AQU, LIB or GEM
Pisces Capricorn	3 rd sign: VIRG, CANC, AQU, GEM, LIB, ARI, LEO, or SAG

(4-10) Pattern of **Tension**

This vibration, though not particularly harmonious. It *could* be a “power connection.” (Review the Table of Content’s/chapter 12 on page VII. This will help you see how).

Aries Cancer	or	Aries Capricorn
Taurus Leo		Taurus Aquarius
Gemini Virgo		Gemini Pisces
Cancer Libra		Cancer Aries
Leo Taurus		Leo Scorpio
Virgo Gemini		Virgo Sagittarius
Libra Cancer		Libra Capricorn
Scorpio Leo		Scorpio Aquarius
Sagittarius Virgo		Sagittarius Pisces
Capricorn Aries		Capricorn Libra
Aquarius Taurus		Aquarius Scorpio
Pisces Gemini		Pisces Sagittarius

This 4-10 pattern is 2 planets 90° apart from one another. Astronomically speaking, the disharmony in this vibration would be because the planetary rays are striking each other at a right angle; “crossing” one another.

But since you have a sun, moon *and* rising sign; a third sign is going to have to fit into this equation. Let’s look at third signs that are disharmonious with one or the other two signs:

Aries Cancer	or	Aries Capricorn	3 rd sign: LIBRA
Taurus Leo	or	Taurus Aquarius	3 rd sign: SCORPIO
Gemini Virgo	or	Gemini Pisces	3 rd sign: SAGITTARIUS
Cancer Libra	or	Cancer Aries	3 rd sign: CAPRICORN
Leo Taurus	or	Leo Scorpio	3 rd sign: AQUARIUS
Virgo Gemini	or	Virgo Sagittarius	3 rd sign: PISCES
Libra Cancer	or	Libra Capricorn	3 rd sign: ARIES
Scorpio Leo	or	Scorpio Aquarius	3 rd sign: TAURUS
Sagittarius Virgo	or	Sagittarius Pisces	3 rd sign: GEMINI
Capricorn Aries	or	Capricorn Libra	3 rd sign: CANCER
Aquarius Taurus	or	Aquarius Scorpio	3 rd sign: LEO

To understand the disharmony of this 4-10 pattern, review the Table of Contents’ chapters 7, 8, 9, 10 and 11 on page VII. This, too, will help you see this “disconnection” and why. (Whereas the Table of Content’s chapter 12 can help you see where it *could* be a harmonious connection).

Other disharmonious combinations of this 4-10 Pattern:

Aries Cancer	3 rd sign: GEMINI or LEO or PISCES or SCORPIO
Aries Capricorn	3 rd sign: GEMINI or LEO or TAURUS or VIRGO
Taurus Leo	3 rd sign: VIRGO or CAP or ARIES or SAG
Taurus Aquarius	3 rd sign: 3 rd sign-VIRGO or CAP or GEMINI or LIBRA
Gemini Virgo	3 rd sign: AQUARIUS or LIBRA or TAURUS or CAP
Gemini Pisces	3 rd sign: AQUARIUS or LIBRA or CANCER or SCORPIO
Cancer Libra	3 rd sign: PISCES or SCORPIO or AQUARIUS or GEMINI
Cancer Aries	3 rd sign: PISCES or SCORPIO or LIBRA or GEMINI
Leo Taurus	3 rd sign: ARIES or SAG or VIRGO or CAPRICORN
Leo Scorpio	3 rd signs: ARIES or SAGITTARIUS or PISC or CANCER
Virgo Gemini	3 rd sign: TAURUS or CAP or LIBRA or AQUARIUS
Virgo Sagittarius	3 rd sign: TAURUS or CAPRICORN or LEO or ARIES
Libra Cancer	3 rd sign: AQUARIUS or GEMINI or PISCES or SCORPIO
Libra Capricorn	3 rd sign: AQUARIUS or GEMINI or TAURUS or VIRGO
Scorpio Leo	3 rd sign: PISCES or CANCER or ARIES or SAG
Scorpio Aquarius	3 rd sign: PISCES or CANCER or GEMINI or LIBRA
Sagittarius Virgo	3 rd sign: ARIES or LEO or TAURUS or CAPRICORN
Sagittarius Pisces	3 rd sign: ARIES or LEO or CANCER or PISCES
Capricorn Aries	3 rd sign: TAURUS or VIRGO or LEO or SAGITTARIUS
Capricorn Libra	3 rd sign: TAURUS or VIRGO or GEMINI or AQU
Aquarius Taurus	3 rd sign: GEMINI or LIBRA or VIRGO or CAPRICORN
Aquarius Scorpio	3 rd sign: GEMINI or LIBRA or PISCES or CANCER
Pisces Gemini	3 rd sign: CANCER or SCORPIO or LIBRA or AQU
Pisces Sagittarius	3 rd sign: CANCER or SCORPIO or LEO or ARIES

(5-9) Pattern of **Opportunity**.

This 5-9 pattern of opportunity is 2 planets 120° apart from one another. It is most harmonious of all patterns and is believed to be the “lucky” or dharmic connection if within your sun, moon and rising sign; two of the three signs are:

Aries | Leo
Aries | Sagittarius
Taurus | Virgo
Taurus | Capricorn
Gemini | Libra
Gemini | Aquarius
Cancer | Scorpio
Cancer | Pisces
Leo | Aries
Leo | Sagittarius
Virgo | Taurus
Virgo | Capricorn
Libra | Gemini
Libra | Aquarius
Scorpio | Cancer
Scorpio | Pisces
Sagittarius | Aries
Sagittarius | Leo
Capricorn | Taurus
Capricorn | Virgo
Aquarius | Gemini
Aquarius | Libra
Pisces | Cancer
Pisces | Scorpio

...But, since you have a sun, moon *and* rising sign, a third astrological sign is going to have to fit into this equation. Third signs that maintain the 5-9 vibration’s harmony are:

Aries Leo	3 rd sign: SAGITTARIUS or GEMINI
Aries Sagittarius	3 rd sign: LEO or AQUARIUS
Taurus Virgo	3 rd sign: CAPRICORN or CANCER
Taurus Capricorn	3 rd sign: VIRGO or PISCES
Gemini Libra	3 rd sign: AQUARIUS or LEO
Gemini Aquarius	3 rd sign: LIBRA or ARIES
Cancer Scorpio	3 rd sign: PISCES or VIRGO
Cancer Pisces	3 rd sign: SCORPIO or TAURUS
Leo Aries	3 rd sign: SAGITTARIUS or GEMINI
Leo Sagittarius	3 rd sign: ARIES or LIBRA
Virgo Taurus	3 rd sign: CAPRICORN or CANCER
Virgo Capricorn	3 rd sign: TAURUS or SCORPIO
Libra Gemini	3 rd sign: AQUARIUS or LEO
Libra Aquarius	3 rd sign: GEMINI or SAGITTARIUS
Scorpio Cancer	3 rd sign: PISCES or VIRGO
Scorpio Pisces	3 rd sign: CANCER or CAPRICORN
Sagittarius Aries	3 rd sign: LEO or AQUARIUS
Sagittarius Leo	3 rd sign: ARIES or LIBRA
Capricorn Taurus	3 rd sign: VIRGO or PISCES
Capricorn Virgo	3 rd sign: TAURUS or SCORPIO
Aquarius Gemini	3 rd sign: LIBRA or ARIES
Aquarius Libra	3 rd sign: GEMINI or SAGITTARIUS
Pisces Cancer	3 rd sign: SCORPIO or TAURUS
Pisces Scorpio	3 rd sign: CANCER or CAPRICORN

It is not likely that all three (sun, moon *and* rising signs) will be harmonious, unfortunately. Third signs that block energy of the 5-9 vibration's harmony is if the third sign is as follows:

Aries Leo	3 rd sign: LIBR, AQU, TAUR, VIRG, CAPR, CANC, SCOR or PISC
Aries Sag	3 rd sign: LIBR, GEM, TAUR, VIRG, CAPR, CANC, SCOR or PISC
Tau Virgo	3 rd sign: SCOR, PISC, ARI, LEO, SAG, GEM, LIB or AQUA
Tau Cap	3 rd sign: SCOR, CANC, ARI, SAG, LEO, AQU, GEMINI or LIBRA
Gem Libra	3 rd sign: SAG, ARI, CANC, SCORP, PISC, TAUR, VIRG or CAPR
Gem Aqu	3 rd sign: SAG, LEO, CANC, SCORP, PISC, TAUR, VIRG or CAPR
Cancer Scorp	3 rd sign: CAPR, TAUR, LEO, SAG, ARIES, LIBR, GEMINI or AQU
Cancer Pisc	3 rd sign: CAPR, VIR, LEO, SAG, ARIES, LIBRA, GEMINI or AQU
Leo Aries	3 rd sign: AQU, LIBR, CANC, PISC, SCOR, TAUR, VIRG or CAPR
Leo Sag	3 rd sign: AQU, GEM, CANC, PISC, SCOR, TAUR, VIRG or CAPR
Virgo Taurus	3 rd sign: PISC, SCORPIO, LEO, SAG, ARI, GEM, AQU or LIB
Virgo Cap	3 rd sign: PISC, CANC, LEO, SAG, ARIES, GEM, AQU or LIB
Libra Gem	3 rd sign: ARI, SAG, TAUR, VIRG, CAPR, LEO, or GEM
Libra Aqu	3 rd sign: ARI, LEO, TAUR, VIRG, CAPR, GEM or SAG
Scorp Cancer	3 rd sign: TAU, CAPR, ARI, LEO, SAG, LIB, GEM or AQU
Scorp Pisces	3 rd sign: TAU, VIR, ARIES, LEO, SAG, LIB, GEM or AQU
Sag Aries	3 rd sign: GEM, LIB, TAU, VIR, CAPR, CANC, PISC or SCOR
Sagittarius Leo	3 rd sign: GEM, AQU, TAUR, VIR, CAPR, CANC, PISC or SCOR
Cap Taurus	3 rd sign: CANC, SCOR, ARIES, LEO, SAG, LIB, GEM or AQU
Cap Virgo	3 rd sign: CANC, PISC, ARI, LEO, SAG, LIB, GEM or AQU
Aqu Gem	3 rd sign: LEO, SAG, TAUR, VIRG, CAPR, CANC, PISC or SCOR
Aqu Libra	3 rd sign: LEO, ARI, TAUR, VIRG, CAPR, CANC, PISC or SCOR
Pisces Cancer	3 rd sign: VIR, CAPR, ARIES, LEO, SAG, LIB, GEM or AQU
Pisces Scorpio	3 rd sign: VIR, TAU, ARI, LEO, SAG, LIB, GEM or AQU

(6-8) Pattern of **Confusion**

This 6-8 pattern of confusion is 2 planets 135° apart from one another and is the least-compatible vibration of all, because of possible conflicts, tension & obstacles (due to the planetary/constellation placements).

Aries | Virgo
Aries | Scorpio
Taurus | Libra
Taurus | Sagittarius
Gemini | Scorpio
Gemini | Capricorn
Cancer | Sagittarius
Cancer | Aquarius
Leo | Capricorn

Virgo | Aquarius
Libra | Taurus

Scorpio | Aries
Scorpio | Gemini
Sagittarius | Taurus
Sagittarius | Cancer
Capricorn | Gemini
Capricorn | Leo
Aquarius | Cancer
Aquarius | Virgo
Pisces | Leo
Pisces | Libra

Since you have a sun, moon *and* rising sign, a third astrological sign is going to have to fit into this equation. This third sign adds to this disharmonious vibration:

Aries Virgo	3 rd sign: ARIES or VIRGO
Aries Scorpio	3 rd sign: ARIES or SCORPIO
Taurus Libra	3 rd sign: TAURUS or LIBRA
Taurus Sagittarius	3 rd sign: TAURUS or SAGITTARIUS
Gemini Scorpio	3 rd sign: GEMINI or SCORPIO
Gemini Capricorn	3 rd sign: GEMINI or CAPRICORN
Cancer Sagittarius	3 rd sign: CANCER or SAGITTARIUS
Cancer Aquarius	3 rd sign: CANCER or AQUARIUS
Leo Capricorn	3 rd sign: LEO or CAPRICORN
Leo Pisces	3 rd sign: LEO or PISCES
Virgo Aries	3 rd sign: VIRGO or ARIES
Virgo Aquarius	3 rd sign: VIRGO or AQUARIUS
Libra Taurus	3 rd sign: LIBRA or TAURUS
Libra Pisces	3 rd sign: LIBRA or PISCES
Scorpio Aries	3 rd sign: SCORPIO or ARIES
Scorpio Gemini	3 rd sign: SCORPIO or GEMINI
Sagittarius Taurus	3 rd sign: SAGITTARIUS or TAURUS
Sagittarius Cancer	3 rd sign: SAGITTARIUS or CANCER
Capricorn Gemini	3 rd sign: CAPRICORN or GEMINI
Capricorn Leo	3 rd sign: CAPRICORN or LEO
Aquarius Cancer	3 rd sign: AQUARIUS or CANCER
Aquarius Virgo	3 rd sign: AQUARIUS or VIRGO
Pisces Leo	3 rd sign: PISCES or LEO
Pisces Libra	3 rd sign: PISCES or LIBRA

Here are other combinations of the same (as previous page).

However, they are a little *less* disharmonious (as the combinations on the bottom of the previous page).

Why? Because the third sign below (on *this* page) are opposite one of the two signs. (We will discuss what “opposite” means with regard to one sign being “opposite” the other in the next 7-7 Pattern on the following page).

Aries | Virgo 3rd sign: LIBRA or PISCES <-(Libra is opposite Aries & Pisces is opposite Virgo)
Aries | Scorp 3rd sign: LIBRA or TAU <-(Libra is opposite Aries & Taur is opposite Scorp)
Taurus | Libra 3rd sign: SCORP or ARIES <-(Scorp is opposite Taur & Aries is opposite Libra)
Taurus | Sag 3rd sign: SCORP or GEMINI <-(Scorp is opposite Taur & Gem is opposite Sag)
Gemini | Scorp 3rd sign: SAG or TAURUS <-(Sag is opposite Gem & Taur is opposite Scorp)
Gemini | Cap 3rd sign: SAG or CANCER <-(Sag is opposite Gem & Cancer is opposite Cap)
Cancer | Sag 3rd sign: CAP or GEMINI <-(Cap is opposite Cancer & Gem is opposite Sag)
Cancer | Aqu 3rd sign: CAPRICORN or LEO <-(Cap is opposite Canc & Leo is opposite Aqu)
Leo | Cap 3rd sign: AQU or CANCER <-(Aqu is opposite Leo & Canc is opposite Cap)
Leo | Pisces 3rd sign: AQU or VIRGO <-(Aqu is opposite Leo & Virgo is opposite Pisc)
Virgo | Aries 3rd sign: PISCES or LIBRA <-(Pisc is opposite Virgo & Libra is opposite Aries)
Virgo | Aqu 3rd sign: PISCES or LEO <-(Pisc is opposite Virgo & Leo opposite Aqu)
Libra | Taurus 3rd sign: ARIES or SCORPIO <-(Aries is opposite Libra & Scor is opposite Tau)
Libra | Pisces 3rd sign: ARIES or VIRGO <-(Aries is opposite Libra & Virgo is opposite Pisc)
Scorpio | Aries 3rd sign: TAURUS or LIBRA <-(Tau is opposite Scor & Libra is opposite Aries)

Sag | Cancer 3rd sign: GEMINI or CAP <-(Gem is opposite Sag & Cap is opposite Canc)
Cap | Gemini 3rd sign: CANCER or SAG <-(Canc is opposite Cap & Sag is opposite Gem)
Cap | Leo 3rd sign: CANCER or AQUARIUS <-(Canc is opposite Cap & Aqu is opposite Leo)
Aqu | Cancer 3rd sign: LEO or CAPRICORN <-(Leo is opposite Aqu & Cap is opposite Canc)
Aqu | Virgo 3rd sign: LEO or PISCES <-(Leo is opposite Aqu & Pisc is opposite Virgo)
Pisces | Leo 3rd sign: VIRGO or AQUARIUS <-(Virgo is opposite Pisc & Aqu is opposite Leo)
Pisces | Libra 3rd sign: VIRGO or ARIES <-(Virgo is opposite Pisc & Aries is opposite Libra)

(7-7) Pattern of **OPPOSITION**.

This 7-7 pattern of opposition is 2 planets 180° apart from one another.

Astrologically speaking, it can be harmonious or equally turbulent (which we will elaborate on on pages 154-157), if within your sun, moon and rising sign; two of the three signs are:

Aries | Libra
Taurus | Scorpio
Gemini | Sag
Cancer | Capricorn
Leo | Aquarius
Virgo | Pisces
Libra | Aries
Scorpio | Taurus
Sag | Gemini
Capricorn | Cancer
Aquarius | Leo
Pisces | Virgo

...but since you have a sun, moon *and* rising sign, a third astrological sign is going to have to fit into this equation. The following compatible third sign “unblocks”[the possible] disharmony of this vibration:

Aries | Lib 3rd sign: LEO, SAG, GEMINI or AQUARIUS
Tau | Scorp 3rd sign: CAP, VIRGO, CANCER or PISC
Gem | Sag 3rd sign: AQUARIUS, LIBRA, LEO or ARIES
Canc | Capr 3rd sign: PISCES, SCORPIO, TAU or VIRGO
Leo | Aqu 3rd sign: SAG, ARIES, GEMINI or LIBRA
Virg | Pisc 3rd sign: TAU, CAP, CANCER or SCORPIO
Lib | Aries 3rd sign: GEMINI, AQU, SAG or LEO
Scorp | Tau 3rd sign: CANCER, PISCES, VIRGO or CAP
Sag | Gem 3rd sign: LEO, ARIES, AQUARIUS or LIBRA
Capr | Canc 3rd sign: TAU, VIRGO, PISCES or SCORPIO
Aqu | Leo 3rd sign: GEM, LIBRA, ARIES or SAG
Pisc | Virgo 3rd sign: CANCER, SCORPIO, TAURUS, CAP

Listed are the third signs that are disharmonious in this 7-7 vibration:

Aries | Lib 3rd sign: CANCER or CAPRICORN
Tau | Scorp 3rd sign: LEO or AQUARIUS
Gem | Sag 3rd sign: VIRGO or PISCES
Canc | Capr 3rd sign: LIBRA or ARIES
Leo | Aqu 3rd sign: SCORPIO or TAURUS
Virg | Pisc 3rd sign: SAG or GEMINI
Lib | Ari 3rd sign: CANCER or CAPRICORN
Scorp | Tau 3rd sign: LEO or AQUARIUS
Sag | Gem 3rd sign: VIRGO or PISCES
Capr | Canc 3rd sign: LIBRA or ARIES
Aqu | Leo 3rd sign: SCORPIO or TAURUS
Pisc | Virgo 3rd sign: SAG or GEMINI

Sneaking a quick peek (near midways from the top of page 185/the 2nd chart) would help you clearly see why there’s possible friction in this vibration.

In order for us to experience growth, we have to experience opposition.

We cannot go through life gliding by without being faced with it (an obstacle, or two, or three)-that is how we evolve. Opposition is a life lesson that tests our strength, our mental, emotional, and spiritual endurance and makes us *aware* of our weaknesses as well as our strengths.

OUR SAMENESS:

1-1 Pattern of Awareness: *Conjunction*. It shows us our “sameness”-the identical astrological sign-0° apart (see page 140).

THE IN-BETWEEN:

2-12-growth (see page 142).

3-11-flow (see page 145).

4-10-tension (see page 147).

5-9-opportunity (see page 149).

6-8-confusion (see page 151).

...are all patterns of awareness in between sameness and difference.

OUR DIFFERENCES:

7-7 Pattern of Awareness: *Opposition*. It shows us our differences-the opposite astrological sign that is 180° apart (see page 153).

It's not so much our sameness and likenesses that makes us aware, but rather our differences-what opposes us. The operative word here is “opposition.” That which opposes us will bring about awareness.

In astrology, the sign in the constellation that is 180° opposite yours is what opposes you-what you are in essence. That is why it is important to know where the two signs opposing one another are alike, and where they are different, because they make up “you” (concentrated and diluted).

Example:

diluted (180% you)		concentrated (180% you)	
CANCER	<-----sun----->	CAPRICORN.....	(is opposite Cancer)
TAURUS	<-----moon----->	SCORPIO.....	(is opposite Taurus)
VIRGO	<-----rising----->	PISCES.....	(is opposite Virgo)

SIX DEGREES OF SEPARATION:

Six Degrees of Separation is the idea that (on average) every person is approximately six steps away from any other person on Earth, like that of a “friend of a friend;” connecting two people in six steps (or less).

Well, this next section, I will be talking about astrological opposition. It can be compared to the theory of the Six Degrees of Separation concept (somewhat) because that “astrological opposition” is the zodiac sign that is exactly six zodiac signs apart from one another [like, see example above]. And like with Six Degrees of Separation’s theory; you are about to see your connection with the sign that is opposite and six signs apart from yours:

Aries

+

Libra

Aries, the (1st sign of the zodiac), is concerned with all things having to do with self-selfishly. Astrologically, he is placed 1st and naturally believes that all things belong to him and are for him-only. His motto is "I am," whereas Libra (the 7th sign of the zodiac), rather than being concerned with self; is concerned with all things having to do with balance and equality within all relationships and partnerships, concern for relationship, building bridges-and filling in the gaps of them. His motto is "I seek."

If you take a quick peek at the Table of Content's chapters: 7-Element, 8-Plight, 9-Energy, 10-Quality, and 11-Disposition; you see ways in which Aries and Libra identify. Whereas if you look further down at chapter 12 the Instinct chapter, you will see how Aries and Libra are opposed/opposite.

So if Aries and Libra are your sun and moon sign, or your moon and rising sign, or your rising and sun sign; a third sign is going to have to fit into this equation (sun+moon+rising sign). In considering astrological aspects (the degrees of closeness or distance between constellations-as explained on pages 137-153), you will find that the best (self) compatibility match (with having an Aries and a Libra sun and moon sign, or your moon and rising sign, or your rising and sun sign); is either another Aries or another Libra (see Pattern of Conjunction 1-1/page 140). With this addition, like a teeter-totter; that 3rd sign (another Aries or another Libra) further adds to this 7-7 Pattern of Opposition even more so.

So what does that mean?

Oposing signs like Aries and Libra can do very well together or not so well together, but think of that 3rd sign (another Aries or another Libra) as that rock beneath a wooden teeter-totter further adding to harmony or disharmony.

Note: if you have Aries and a Libra sun and moon sign, or as moon and rising sign, or as rising and sun sign, and your third sign is any other sign than another Aries or Libra, view Patterns: 2-12, 3-11, 4-10, 5-9, and 6-8 to see why or why not your Aries + Libra + (that 3rd sign) may or may not be harmonious in this sun sign+moon sign+rising sign vibration.

The same goes for:

Taurus

+

Scorpio

Taurus, the (2nd sign of the zodiac), is possessive and concerned with all the resources for himself (tight-fistedly). He is not about to give away or share his resources. His motto is "I have," whereas Scorpio (the 8th sign of the zodiac), believes in shared and joint resources from others-yes-but also with others. His motto is "I desire" (to have).

If you take a quick peek at the Table of Content's chapters: 7-Element, 8-Plight, 9-Energy, 10-Quality, and 11-Disposition; you see ways in which Taurus and Scorpio identify. Whereas if you look further down at chapter 12 the Instinct chapter, you will see how Taurus and Scorpio are opposed/opposite.

So if Taurus and Scorpio are your sun and moon sign, or your moon and rising sign, or your rising and sun sign; a third sign is going to have to fit into this equation (sun+moon+rising sign). In considering astrological aspects (the degrees of closeness or distance between constellations-as explained on pages 137-153), you will find that the best (self) compatibility match (with having Taurus and a

Scorpio sun and moon sign, or your moon and rising sign, or your rising and sun sign); is either another Taurus or another Scorpio (see Pattern of Conjunction 1-1/ page 140). With this addition, like a teeter-totter; that 3rd sign (another Taurus or another Scorpio) further adds to this 7-7 Pattern of Opposition even more so.

So what does that mean?

Opposing signs like Taurus and Scorpio can do very well together or not so well together, but think of that 3rd sign (another Taurus or another Scorpio) as that rock beneath a wooden teeter-totter further adding to harmony or disharmony.

Note: if you have Taurus and a Scorpio sun and moon sign, or as moon and rising sign, or as rising and sun sign, and your third sign is any other sign than another Taurus or Scorpio, view Patterns: 2-12, 3-11, 4-10, 5-9, and 6-8 to see why or why not your Taurus + Scorpio + (that 3rd sign) may or may not be harmonious in this sun sign+moon sign+rising sign vibration.

The same goes for:

Gemini

+

Sagittarius

Gemini, (the **3rd** sign of the zodiac) is mentally active, but these philosophical and intellectual journeys are usually short, and quick and all over the place, as is their element-air: restless. Gemini's motto is "I think," (in short terms/ trips) whereas Sagittarius (the **9th** sign of the zodiac) is "I see." Also philosophical, Sagittarius' wanderlust makes them more physically active therefore, his journeys are longer. He is not so mentally restless as his opposite (Gemini).

If you take a quick peek at the Table of Content's chapters: 7-Element, 8-Plight, 9-Energy, 10-Quality, and 11-Disposition; you see ways in which Gemini and Sagittarius identify. Whereas if you look further down at chapter 12 the Instinct chapter, you will see how Gemini and Sagittarius are opposed/opposite.

So if Gemini and Sagittarius are your sun and moon sign, or your moon and rising sign, or your rising and sun sign; a third sign is going to have to fit into this equation (sun+moon+rising sign). In considering astrological aspects (the degrees of closeness or distance between constellations-as explained on pages 137-153), you will find that the best (self) compatibility match (with having Gemini and a Sagittarius sun and moon sign, or your moon and rising sign, or your rising and sun sign); is either another Gemini or another Sagittarius (see Pattern of Conjunction 1-1/page 140). With this addition, like a teeter-totter; that 3rd sign (another Gemini or another Sagittarius) further adds to this 7-7 Pattern of Opposition even more so.

So what does that mean?

Opposing signs like Gemini and Sagittarius can do very well together or not so well together, but think of that 3rd sign (another Gemini or another Sagittarius) as that rock beneath a wooden teeter-totter further adding to harmony or disharmony.

Note: if you have Gemini and a Sagittarius sun and moon sign, or as moon and rising sign, or as rising and sun sign, and your third sign is any other sign than another Gemini or Sagittarius, view Patterns: 2-12, 3-11, 4-10, 5-9, and 6-8 to see why or why not your Gemini + Sagittarius + (that 3rd sign) may or may not be harmonious in this sun sign+moon sign+rising sign vibration. The same goes for:

Cancer

+

Capricorn

Cancer (the “mother of” and **4th** sign of the zodiac)’ s concern is for security and stability. Most all of what they do, see, think, obtain, live, breathe and are, is gathered through intuition and by way of emotion-for their motto is “I feel,” whereas Capricorn (the “father of” and the **10th** sign of the zodiac)’s concern is reputation, money and career: money first, family second. Cancer (his opposite) sees it in the opposite order. The Capricorn way to achieving all the material things is by way of social climbing which hence their motto: “I use.”

If you take a quick peek at the Table of Content’s chapters: 7-Element, 8-Plight, 9-Energy, 10-Quality, and 11-Disposition; you see ways in which Cancer and Capricorn identify. Whereas if you look further down at chapter 12 the Instinct chapter, you will see how Cancer and Capricorn are opposed/opposite.

So if Cancer and Capricorn are your sun and moon sign, or your moon and rising sign, or your rising and sun sign; a third sign is going to have to fit into this equation (sun+moon+rising sign). In considering astrological aspects (the degrees of closeness or distance between constellations-as explained on pages 137-153), you will find that the best (self) compatibility match (with having Cancer and a Capricorn sun and moon sign, or your moon and rising sign, or your rising and sun sign); is either another Cancer or another Capricorn (see Pattern of Conjunction 1-1/page 140). With this addition, like a teeter-totter; that 3rd sign (another Cancer or another Capricorn) further adds to this 7-7 Pattern of Opposition even more so.

So what does that mean?

Opposing signs like Cancer and Capricorn can do very well together or not so well together, but think of that 3rd sign (another Cancer or another Capricorn) as that rock beneath a wooden teeter-totter further adding to harmony or disharmony.

Note: if you have Cancer and a Capricorn sun and moon sign, or as moon and rising sign, or as rising and sun sign, and your third sign is any other sign than another Cancer or Capricorn, view Patterns: 2-12, 3-11, 4-10, 5-9, and 6-8 to see why or why not your Cancer + Capricorn + (that 3rd sign) may or may not be harmonious in this sun sign+moon sign+rising sign vibration.

The same goes for:

Leo

+

Aquarius

Leo (the **5th** sign of the zodiac) is whose motto is: “I will,” is self-promoting and concerned with all things having to do with self-opinion, and his own interests-first-before the interests of others and groups, whereas, Aquarius (the **11th** sign of the zodiac whose motto is: “I know”) is concerned with group association and interests directed toward mankind and humanity first-before his own.

If you take a quick peek at the Table of Content’s chapters: 7-Element, 8-Plight, 9-Energy, 10-Quality, and 11-Disposition; you see ways in which Leo and Aquarius identify. Whereas if you look further down at chapter 12 the Instinct chapter, you will see how Leo and Aquarius are opposed/opposite.

So if Leo and Aquarius are your sun and moon sign, or your moon and rising sign, or your rising and sun sign; a third sign is going to have to fit into this

equation (sun+moon+rising sign). In considering astrological aspects (the degrees of closeness or distance between constellations-as explained on pages 137-153), you will find that the best (self) compatibility match (with having Leo and a Aquarius sun and moon sign, or your moon and rising sign, or your rising and sun sign); is either another Leo or another Aquarius (see Pattern of Conjunction 1-1/ page 140). With this addition, like a teeter-totter; that 3rd sign (another Leo or another Aquarius) further adds to this 7-7 Pattern of Opposition even more so.

So what does that mean?

Opposing signs like Leo and Aquarius can do very well together or not so well together, but think of that 3rd sign (another Leo or another Aquarius) as that rock beneath a wooden teeter-totter further adding to harmony or disharmony.

Note: if you have Leo and a Aquarius sun and moon sign, or as moon and rising sign, or as rising and sun sign, and your third sign is any other sign than another Leo or Aquarius, view Patterns: 2-12, 3-11, 4-10, 5-9, and 6-8 to see why or why not your Leo + Aquarius + (that 3rd sign) may or may not be harmonious in this sun sign+moon sign+rising sign vibration.

The same goes for:

Virgo

+

Pisces

Virgo (the 6th sign of the zodiac, whose motto is: “I analyze”) is analytical and practical before validating anything, and has a objective and realistic view of life. He is at a place in the house where there’s the need to be of service to others and seeks to analyze and explore positive/negative experiences to make sense of either, whereas Pisces (the 12th sign of the zodiac, whose motto is: “I believe”) validates subjectively-by way of what they feel and believe. In comparison his to Virgo opposite; Pisces has a subjective view of life, as it is through Pisces’ emotion and intuition that he/she process what Virgo analyzes.

If you take a quick peek at the Table of Content’s chapters: 7-Element, 8-Plight, 9-Energy, 10-Quality, and 11-Disposition; you see ways in which Virgo and Pisces identify. Whereas if you look further down at chapter 12 the Instinct chapter, you will see how Virgo and Pisces are opposed/opposite.

So if Virgo and Pisces are your sun and moon sign, or your moon and rising sign, or your rising and sun sign; a third sign is going to have to fit into this equation (sun+moon+rising sign). In considering astrological aspects (the degrees of closeness or distance between constellations-as explained on pages 137-153), you will find that the best (self) compatibility match (with having Virgo and a Pisces sun and moon sign, or your moon and rising sign, or your rising and sun sign); is either another Virgo or another Pisces (see Pattern of Conjunction 1-1/ page 140). With this addition, like a teeter-totter; that 3rd sign (another Virgo or another Pisces) further adds to this 7-7 Pattern of Opposition even more so.

So what does that mean?

Opposing signs like Virgo and Pisces can do very well together or not so well together, but think of that 3rd sign (another Virgo or another Pisces) as that rock beneath a wooden teeter-totter further adding to harmony or disharmony.

Note: if you have Virgo and a Pisces sun and moon sign, or as moon and rising sign, or as rising and sun sign, and your third sign is any other sign than another Virgo or Pisces, view Patterns: 2-12, 3-11, 4-10, 5-9, and 6-8 to see why or why not your Virgo + Pisces + (that 3rd sign) may or may not be harmonious in this sun sign+moon sign+rising sign vibration.

Chapter 14

The 12 Signs of the Zodiac

Aries

Symbol: The noble looking ram who samples all things around him. He is brave because he knows not of danger ahead of him-he has to experience it for himself, yet and still, he will come back around to test the waters-regardless the outcome of the first test.

House & Motto: “I am” therefore I am: environmental experiences, the physical self and personality. I am personal interests, ego and structure of the physical self/physical body. I am the stage where the character mask is worn. I am firstborn and my approach to the world is like that of an infant. “I am” because I am all that I am aware of-which, like an infant, is why I am selfish by nature.

My house is FIRST & because I am first, everything is about Me! Me!

Element: Fire is light and heat and is in a class by itself (not a gas, a liquid or a solid). It is Combustive-seen and felt. Even alone, fire is violent and acts with great physical force. It reacts with even greater force at interaction with it, and fights wildly so that it may not be put out. It creates action in hopes of getting a reaction due to its inner motivations. It is passionate and immoderate-showing or resulting from strong feeling. It is furious, extreme and intense-tending to distort the meaning of whatever interacts with it. It is excited, agitated, energetic, assertive, dynamic, enthusiastic, idealistic, self-projecting, and always looking for challenges-thus taking action for the benefit of itself.

Fire is the will and the spirit within the individual that motivates them to aggressive action. It is a physical element that is responsive through action and inspiration.

Planets: *Mars*-INITIATIVE, COURAGE, PERSONAL DRIVE, ENERGY, PASSION, AGGRESSION and EGO PROJECTION-motivation, physical energy and stamina, boldness, freedom-loving, pioneering, tenacious, warrior ways, fighter, fearless, independent, competitive, initiative, drive, passion, aggressive, irate, exhibits action and directness in approach, able to lead, authoritative, tough, violent, harsh, strong leader especially in crisis, desires, angers, has courage, is egocentric, arrogant, materialistic, flamboyant, excitable, crusader, a positive & lively response to all situations. Temperamental, reckless, sexually irresponsible, foolhardy, wantonly destructive, impulsive, accident-prone, sensation-seeking, self-indulgent, lacks forethought, selfish, quarrelsome, overhasty & boisterous also:

Pluto-ELIMINATION, TRANSFORMATION, REDEMPTION, EXTRASENSORY PERCEPTION, DARKNESS, DEATH, REGENERATION, OBSESSION & TRANSCENDENCE OF THE EGO-rules drive, force & change.

Plight: “Masculine”: proactive and provoking, aggressive and active, electric, spontaneous and self-expressive.

Energy: Dynamic energy is direct, rather than waiting for things to come to it. It faces the world boldly and defiantly. It is dominant, aggressive, extroverted, assertive, and confrontational.

Quality: Optimistic, idealistic, positive and sanguine in nature, confident, footloose and fancy-free, light-hearted, cheerful, forward-looking, progressive, affirmative, cooperative, effective, impractical, constructive, useful, helpful, serviceable, applicable, beneficial, gainful, good, salutatory, contributory, hopeful.

Disposition: Typically, odd numbered signs are extroverts. They tend to focus their energies on things in and of the world outside themselves-they thrive on and require energy from it while they contribute to it. DISCOVERING YOUR KARMA MISSION and PURPOSE in LIFE

A “Karma Mission” is simply an act of sharing what is innate in you.

We discover it usually by being inspired, entertained, encouraged or empowered by something or someone else that we share this universe with.

Our karma mission and purpose in life is as much apart of us as our date of birth.

It is [what I believe] something that was predestined for us-the purposeful reason why we exist and co-exist.

We were born at a certain time, month, day and year-into an already pre-planned mold of what we are supposed to do, and by way of that, we are “kept track of.” However, as terrestrials with intuitive dominion over the life form that we share; we are granted the privilege of living by free will, or a life in default (to whatever circumstances or situations that are available to us-bad or good). The Creator of the universe is so divine in order, balance and continuity that just like the 4 seasons, 365 days per year, 52 weeks within the year, 24 hours within the day and 7days within a week; this “keeping track of” is It’s goal for us too-to be kept track of (like the seasons and time). However, in order for the world to go ‘round, it is essential that there is balance and imbalance, obedience and disobedience, order and disorder: however, our time, month, day and year that we were born is an order and where our pre-destiny lies. But until it is discovered (by being inspired, entertained, encouraged or empowered), we remain on that continuum of the world going ‘round, and the universe checks in on us-to see how we are living (or not living). I believe that our spiritual nudges come in the form of what we feel about what we are doing, and what we are feeling by how we are living. Our personal success, our self-worth, our lives, and our personal contentment is contingent upon the order of things that we follow in our practical and tangible lives, and as well, our spiritual and immaterial lives-both: in balance.

Now that you have learned “First Things First” (everything about your personological self- from pages 1-183 of this book) let’s get down to the business of “Discovering Your Karma Mission and Purpose in Life.”

(You should’ve already written down what your sun+moon+rising sign’s are on page 78).

The interesting thing about charting your sun, moon, and rising sign’s mission in life is that whatever mission your diluted sun, moon and rising is; your concentrated sun, moon and rising mission will be the same. Let’s review how this is so:

YOU DILUTED <-----> YOU CONCENTRATED_____> (both are)

if you are Aries sun ,or moon, or rising then you are also Libra-concentrated sun or moon or rising (CARDINAL)

if you are Taurus sun, or moon ,or rising then you are also Scorpio-concentrated sun or moon or rising (FIXED)

if you are Gemini sun, or moon, or rising then you are Sagittarius-concentrated sun, or moon, rising (MUTABLE)

All 12 signs Lead, Organize & Communicate in different ways.

Let's Talk About the Role of a:

LEADER, an ORGANIZER and a COMMUNICATER:

To LEAD: When one leads, he directs the operations, performance or activity of a thing for which he is the head of. He is orchestration-so as to bring about a definite result.

To ORGANIZE: When one organizes, he develops an organic structure of a thing and forms it into a complete and functioning whole. He sets up an administrative structure for, arranges systematically, and plans a united effort. He unionizes, institutionalizes, finds, and establishes.

To COMMUNICATE: When one communicates, he makes known-a thing and passes some thing from one to another. He transmits. He joins and connects that which, by way of communicating, information or opinion is transmitted or exchanged.

Your rising sign is the sign from which you “Discover *Your* Karma Mission and Purpose in Life.” To introduce you to your Karma Mission and Purpose in Life, as an example, we will use *my* own Sun, Moon, and Rising signs:

LEADER----->Cancer-Capricorn (sun sign)----->Ego (DEFAULT or FREE WILL)

ORGANIZER----->Taurus-Scorpio (moon sign)----->Id (DEFAULT or FREE WILL)

COMMUNICATER----->Virgo-Pisces (rising sign)----->SPIRIT (DESTINY)

This next section is set up for you to focus on your rising sign only, and the charts are *specifically* for your rising/Spirit sign. I will also show you just *how* each rising sign Leads, Organizes and Communicates, and by way of that; what job, occupations and careers are best tailored to your rising/spirit signs’ Karma Mission and Purpose in Life.

CANCER'S KARMA MISSION and PURPOSE IN LIFE is to LEAD

Cancer leads by intuition: emotionally.

Surprisingly cardinal considering how reserved, unassertive and introverted they most often are. However, they have what it takes to accomplish their goals and are productive in doing so.

CAPRICORN'S KARMA MISSION and PURPOSE IN LIFE is to LEAD

Capricorn leads by worldly success.

Ambition is their middle name.

They are natural cardinal signs in that they are very opposed to being dominated. They are the most determined and ambitious of the zodiac and are always motivated to take the lead.

They are happiest when challenged, as they are persistent and determined and like the sure-footed goat the represents them, by any means necessary; will do whatever it takes to get to and maintain their place at the top in a life of worldly success.

As leaders, they are responsible and conscientious and will not exactly turn their nose up at earning power.

They are workaholics.

They lead with an iron fist and run a tight ship—all rules are strictly enforced, as they know the benefits of playing by the rules.

If you want it done right and on schedule—don't do it yourself, grab hold of a Capricorn.

They hate competition and will only back down if they are the winner.

Those characteristics certainly put Capricorn ahead of the game of cardinal leadership.
